Hi Tracey -

I did a corporation profile search at the Province this morning and the results did not identify "Queers Against Israel Apartheid" as an incorporated entity.

Therefore "Queers Against Israeli Apartheid" is more a message than a bona fide name of a group.

Further to the discussion with you and Pride's co-chairs yesterday, our understanding is, given that this is not a registered name, Pride will not allow participation with this "message".

It would be helpful if you could include this with the other actions that you will be forwarding to us in writing today.

Thanks. Lori
